Full Stack Web Developer with a background in Accounting and tenacity to learn new information. Effective at creatively problem solving to develop user-friendly applications. Works well with team members and receptive to feedback that further develops my professional aspirations.

TECHNICAL SKILLS:

- HTML5
- CSS
- JAVASCRIPT
- JQUERY
- API
- NODE

PROJECTS:

Password Generator

<https://staylight16.github.io/PasswordGenerator/>

Role in Project: Front-end/back-end

Application was designed to generate a random password for the user. User would set the criteria for password. Application would generate a random password based on user's criteria. [HTML, CSS, Javascript]

Javascript Coding Quiz

<https://staylight16.github.io/PasswordGenerator/>

Role in Project: Javascript/Back-End

Application displayed Javascript questions to user. User prompted to answer questions while being timed. Application computed score based on how many questions user answered correctly and stored results in user's local storage. [HTML, CSS, Javascript]

Quarantinis: A Cocktail Generator

<https://github.com/koltondecker/quarantinis>

Role in Project: Javascript/Presentation

Application generated drink recipes based on user criteria. Application also provided directions to local breweries upon user's request. [HTML, CSS, Javascript, JQuery, Materialize, API]

Experience:

Senior Compliance Auditor - United States Department of Agriculture - Kansas City, MO, June 2009 - Current

I supervise audits and investigations of USDA's approximately 300 programs, and recommend policies and actions to promote economy, efficiency, and effectiveness.

Education:

University of Arkansas at Pine Bluff, Pine Bluff, Arkansas - Bachelors in Accounting
